The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1, 2, 4-7, 9, 14, 18, 20-28 are rejected under 35 U.S.C. 102(a,e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Tarsa, of record.

The limitations in the claims do not structurally distinguish over Tarsa because there are separated transparent electrode regions.

Claims 1,2,4-7,9,14,18,20-28 are rejected under 35 U.S.C. 103(a) as being unpatentable over Tarsa in view of Katayama, of record.

The previous rejection with the above comments applies.

Claims 1,2,4-7,9,14,18,20-28 are rejected under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Katayama, of record.

The new limitations in the claims regarding “separated” are not patentable because there are “separated” transparent electrode regions in Katayama.

Applicant's arguments filed 9/02/08 have been fully considered but they are not persuasive. Applicant argues transparent electrodes are completely everywhere physically separated or isolated from one another, however, the claims are not so narrow. Transparent electrodes of the prior art have separated electrode regions at particular locations. The features upon which applicant relies (i.e., complete physical separation of individual transparent electrode regions) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from

Art Unit: 2815

the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
